SUMMARY

Computer Science Engineering student specializing in Cloud Computing, with hands-on experience across AWS gained through an internship at VHILV Technologies. First Prize winner at TNWISE 2026 for Smart SaltCare, a solar-powered IoT solution built to support salt pan workers, backed by a growing track record of hackathon wins and startup recognitions.

EDUCATION

Arifa Institute of Technology, Anna University — *Esanoor, Nagapattinam*
B.E. Computer Science and Engineering — CGPA: 8.35 — *2023 – 2027 (Present)*

Government Girls Higher Secondary School — *Vedaranyam, Nagapattinam*
Class XII — 85.16% — *2023*

EXPERIENCE

VHILV Technologies — *Nagapattinam*
Full Stack Development Intern (Stipend) — *Jun 2025 – Oct 2025*

- Developed and deployed CRM application modules, including authentication and client management, using Django and JavaScript, reducing manual data entry by 40%
- Engineered a fleet route optimization system with REST API integration, cutting route planning time by 30%
- Designed responsive UI components and authored technical documentation covering API design and cloud architecture workflows

CERTIFICATIONS

Cloud Computing — *Infosys Springboard*
Cloud architecture, IaaS, PaaS, SaaS, deployment models, and cloud security — *June 2026*

Solutions Architecture Job Simulation — *AWS & Forage*
Scalable cloud hosting design on AWS — IAM, VPC, EC2, S3 — *January 2026*

Basics of Python — *Infosys Springboard*
Core Python programming, scripting, and automation fundamentals — *May 2026*

PROJECTS

Private Cloud File Storage Server
Docker, Kali Linux, Self-Hosted Web Interface

- Self-hosted a private cloud file storage server using Docker on Kali Linux, enabling secure file storage, management, and access through a web-based interface across the local network without relying on any third-party cloud platform
- Designed with a privacy-first, open-source approach, avoiding data collection or external tracking, using isolated Docker volumes for persistent, fully customizable storage

AWARDS & ACHIEVEMENTS

- TNWISE 2026 (TANCAM) — First Prize | Smart SaltCare, Rural Innovation, state-level competition
- AWS Student Builder | Recognised as an AWS Student Builder for cloud learning and community contributions
- Google Student Ambassador | Selected as Google Student Ambassador for promoting Google technologies on campus
- AICCI National Startup Summit — Top 10 Finalist | Salt Tech Innovation team, Thoothukudi (Aug 2026)
- Nimirndhu Nil Hackathon — State Level Selected | TNYIEDP, EDII-TN, Govt. of Tamil Nadu (Aug 2026)
- Startup Singam — Homepreneur Awards 2026 | Student Edition, Loyola College, Chennai (Jul 2026)
- Recursion Edition 2 — Shortlisted | VIT Chennai (Sep 2026)

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, IAM, VPC), Cloud Computing, Cloud Architecture, IaaS, PaaS
DevOps & Security: Linux, JWT, bcrypt, OWASP, Access Control
Programming: Python, JavaScript, HTML, CSS, REST API, SQL
Frameworks & DB: Flask, Django, FastAPI, PostgreSQL, Git, GitHub
